BETTER THAN DIAMONDS.

I was standing in the broad, crowded streets of a large city. It was a cold winter's day.—There had been rain; and although the sun had been shining brightly, yet the long icicles hung from the eaves of the houses, and the wheels rumbled loudly as they passed over the ground. There was a clear, bright look, and a cold, bracing feeling in the air, and a keen northwest wind which quickened every step. And then a little girl came running along—a poor, ill clad child. Her clothes were scant and threadbare; she had no cloak and no shawl, and her little bare feet looked red and suffering. She carried a bundle in her hand. As she passed me her foot slipped and she fell with a cry of pain; but she held the bundle tightly in her hand, and jumping up, although she limped sadly, endeavored to run on as before.

"Stop, little girl!" said a sweet voice, and a beautiful woman, wrapped in a large shawl, with furs around her, came out of a jeweller's store close by. "Poor child," she said, "are you hurt? Sit down on this step and tell me."

How I loved her, and how beautiful she looked.

"Oh! I cannot," said the child; "I cannot wait; I am in such a hurry! I have been to the shoemaker's, and mother must finish them to-night, or she will never get any more shoes to bind."

"To-night!" said the beautiful woman, "to-night?"

"Yes," said the child—for the stranger's kind manner had made her bold—"Yes, for the great ball to-night. And these satin slippers must be spangled and—"

The beautiful woman took her bundle from the child's hand, and unrolled it. You do not know why her face flushed, and then turned pale. But I—yes, I—looked in the bundle and on the inside of a slipper I saw a name, a lady's name, written; but I shall not tell it.

"And where does your mother live, my little girl?"

So the little girl told her where; and then she told her that her father was dead, and that her little brother was sick, and that her mother bound shoes that they might have bread; but that sometimes they were very cold, and that her mother sometimes cried because she had no money to buy milk for her little brother. And I saw that the lady's eyes were full of tears; and she rolled up the bundle quickly, and gave it back to the child; but she gave her nothing else; no, not even a sixpence; and, turning away, went back into the store from which she had just come out. As she went away I saw the glitter of a diamond pin. Presently she came back, and stepping into a hand-some carriage, rolled off. The little girl looked after her a moment, and then, with her little bare feet, colder than they were before, ran quickly away.

I followed the little girl, and saw her go to a narrow, damp street, into a small, dark room. I saw her mother—her sad faded mother, but with a face so patient—hushing and soothing a sick baby. And the baby slept, and the mother laid it on her lap; and the bundle was unrolled, and a dim candle helped her with her work; for though it was not night, yet her room was very dark. Then after a while, she kissed the little girl, and warmed her poor frozen feet over the scanty fire in the grate, and gave her a little piece of bread, for she had no more; and then heard her say her evening prayer, and, folding her tenderly to her bosom, blessed her and told her that the angels would take care of her.—And the little child slept, and dreamed—oh, such pleasant dreams!—of warm stockings and new shoes; but the mother sewed all alone; and as the bright spangles glittered on the satin slippers, came there no repining into the heart? When she thought of her child's lame, cold feet; and of the scanty morsel of bread which had not satisfied her hunger, came there no visions of a bright room and gorgeous clothing, and a table loaded with all that was good and nice, a little portion of which spared to her would send warmth and comfort to her humble dwelling?

If such thoughts came, and others of a pleasant cottage, and of one who dearly loved her, and whose strong arm had kept want and trouble from her and her babes, but who could never come back—if these thoughts did not come repiningly, there also came another; and the widow's hands were clasped and her head bowed in deep contrition, as I heard her say, "Father, forgive me! for thou doest all things well, and I will trust in Thee." Just then the door opened softly, and some one entered. Was it an angel? Her hands were of spotless white, and she moved with a noiseless step. She went to the bed where the child lay, and covered it with warm blankets. Then presently a fire sparkled and blazed there, such as the little grate had never known before. Then a large loaf was placed upon the table, and fresh milk for the sick babe. Then she passed gently before the mother, and drawing the unfinished slipper from her hand, placed there a purse of gold, and said, in a voice like music, "Bless thy God, who is the God of the fatherless and the widow." And she was gone—only as she went out I heard her say, "Better than diamonds, better than diamonds." What could she mean? I looked at the mother. With clasped hands and streaming eyes she blessed her God who had sent an angel to comfort her. So I went too; and I went to a bright room, where there were music, and dancing and sweet flowers; and I saw young happy faces and sparkling jewels, but none that I knew, until one passed me whose dress was of simple white, with only a rose-bud on her bosom, and whose voice was like the sweet sound of a silver lute. No spangled slipper was on her foot; but she moved as one that treadeth upon air; and the divine beauty of holiness had so glorified her face that I felt, as I gazed upon her, that she was indeed an angel of God.

OUR SOLDIERS.

Whatever differences of opinion there may be as to the merits or demerits of this or that general during the conduct of this war against rebellion, purely regarding the merits of our private soldiers—the rank and file—who have borne the burden and heat of the day," there can be no difference. Called by the sudden roll of drums, that was sounded over the nation from the national capital, to fly, all unprepared from the avocations of peace, to fight for the protection of the nation's life threatened by a most formidable internal foe, the people rushed to arms. Men, who, since first they nestled in the little cot which they called home—since first they took upon themselves the sacred trusts of husband and father—had never known before what it was to bid home and family an uncertain and long farewell—*now* took hastily the parting kiss, and, like our fathers in the revolution, leaving the plough in the field, the implements of the artisan in the shop, and the desks of business unsettled, hurried to the scene of strife. It was to attend no holiday pageantry. It was not to strut and shine for a gala-day in the tinselled show of playing soldiers. No, it was, for the first time, and undrilled, hastily equipped and indifferently officered, to rush into the scenes of actual warfare.—Homes and all its endearments were left for the first time, with so many chances of never more returning, to enjoy its prized endearments. And yet, where in the history of the world has there been such a noble voluntary uprising of a free people, to protect the ark of their freedom from the hands of the spoiler? In vain we look through the long vista of history for a parallel. This too, was a rushing forward of men who were to bear the burden of war. It is always easy to find volunteers enough to wear swords and epaulettes, but to see a free and peaceful people, converted of their own accord, into a nation of warriors, under the simple inspiration of patriotism, is a wonder indeed. And as it was in the beginning even so has it been through the progress of this war. The most terrible pangs of hunger and thirst, the most trying vicissitudes of heat, cold and wet, have had to be endured, and *have been* endured with a patience and perseverance that have constituted our soldiers heroes, just as truly as when they scorned danger at the cannon's mouth. The common soldiers—*they* are indeed the *true* heroes of this war. But the last crowning glory of the patriotism displayed by our common soldiers is the strong disposition of many, who have braved all the dangers and born all the burdens of one campaign, to re-enlist for further service, because they are made to feel that their suffering country needs their services more than ever, just at this juncture of affairs.

In the city of New York we are told of manifestations of a general disposition to re-enlist among the returned volunteers. Old regiments who have earned themselves a name, are expressing a wish to be revived, and to drag from their sacred repositories their worn and scarred flags, which witnessed their gallantry, and bear them again aloft to the field of war, as the sacred emblems of our nation's hopes.

But the scene at Newbern! ah! what artist with pen or pencil can adequately sketch that life-like scene. When men, who had honorably served their term of enlistment, fought bravely their country's battles and longed for the enchantments of home and all its quiet joys once more, yet, hesitated not to respond most promptly and heartily to the stirring appeal of the Commanding General of their Department, and to re-enlist on the spot; and, says the despatch in speaking of the scene, as General Foster spoke to the various regiments whose terms had expired, and rehearsed their heroic endeavors, their magnificent discipline, and referred to the natural attachment between himself and them, the deafening cheers from the troops, amid the roar of artillery and strains of music, gave it the appearance of a jubilee. And when he told them in feeling words that they must go to Vicksburg then—that their country needed them more than ever, a regiment of nearly two thousand men responded, and was organized on the spot. These are the scenes—these are the living heroic evidences of a living patriotism and an attachment to freedom, that, more than all else, will the din and carnage of a terrible civil war will still teach the nations of the world that Republicanism is the great conservator of Liberty and that America is her last and true home.

A letter from the Potomac Army states that [illegible] of the 10th New York, became [illegible] whiskey, and slapped the face [illegible] of the same regiment. The lieutenant knocked him down and was on the ground with a [illegible] second at the appointed hour. Fuller [illegible] proposed, but stated that he was unable either [illegible] or procure a second. "That [illegible]" said Porter. "We will toss up [illegible] You, being the challenged party, have the choice of weapons." The boxing [illegible] Fuller seem. He then chose four [illegible] "It will be nothing less than murder," [illegible] "Fire away!" Instead of putting his pockets, he then quietly [illegible] Fuller fired on one side [illegible] ground and the matter ended.

Local News Items.

The County Officers elected for this County, at the late session of the General Assembly, have all received their Commissions, and been engaged thereupon, with the exception of the Clerk of the Court of Common Pleas, and the Supreme Court, who, we understand will be qualified to-morrow.

City Convene.—There was an adjourned meeting of the City Council last evening, for the purpose of choosing the Municipal Officers for the present year. But after transacting some business of no great importance, both boards adjourned without having met in Convention for the purpose above specified.

There seems to be a hitch somewhere, but we do not meddle much with municipal matters, and therefore have nothing to say. This much we may add, in a general way, that if it is fated by the "secret tribunal," that anybody's head must come off, and the decapitated can only be as fortunate in getting a sticking plaster from the General Government, as were some of those decapitated by the Republican General Assembly of our State, they will be fortunate, and will find their heads on again securely and snugly not only, but just as good as new, and a little more so.

It were fortunate, indeed, to loose a paltry office that never could bring in much, and then receive a sugar plum really worth four times as much to "keep one from crying". But we like this law of compensation, and hope that all the decapitated of all parties and stripes will be the fortunate recipients of this kind of curative treatment. It is particularly a convenient one for a man *of no party*.

Police—Caught at Last.—On the annual jubilee of our State "decapitation" commonly called, "election," as Mr. Special Policeman Freeborn attempted to arrest a man for enjoying the day in a manner not entirely consistent with the public peace, the-it-isn't-want-to-be-nabbed-visitor, turned upon the officer, and after striking him several times, effected his escape. As the man was a stranger in these parts, the question was raised again—that celebrated question—"who struck" &c. It has since been settled and the guilty violator of the law, proved to be a Mr. Andrew Bray, now working at Hoxsie's Mills about two miles from Wickford in the town of North Kingstown. A complaint was made and a warrant issued against the said Bray, and placed in the hands of officer Carpenter, who started yesterday across the Jamestown Ferry about noon. He proceeded over both ferries and up to Kingston Hill, where he procured the services of officer Babcock of that place, who proceeded to North Kingstown and arrested the delinquent Bray, and conveyed him to the South Ferry on Narragansett, which being within jurisdiction, officer Carpenter took him to Newport and locked him up safely in Jail last evening, at 9 o'clock—an expeditious performance of the amount of work performed, considering the inefficities of travel in such a benighted route. Mr. Bray will now have time for meditation, and will learn better and show himself less of an Ass by not *bragging* quite so loud in public.

Real Estate Sales.—Wm. P. Peckham, has sold to Elizabeth Aspinwall, a lot of land on Park street, for $600.

Joseph Sherman and Samuel Brown, have sold to Alexander Barker a lot of land in the rear of Third street for $365.50cts.

John E. Nicolai, has sold to George A. Simmons, a house and lot on Tanner street, known as the John Moore estate, for $560.

The Lewis Caleb's estate on Willow street, has been sold by public auction, at Mortgagees sale to George L. White, for $100.

A Deserved Appointment.—Mr. William L. Tilley, son of City Marshal Tilley, has been appointed Clerk in the Department of Commandant Matthews, of the U. S. Frigate Marion. Young Mr. Tilley, is well adapted to fill the appointment satisfactorily.

Personal.—Hon. Schuyler Colfax, and family are in town, and have taken rooms at Miss Lydia Mitchell's at the head of Broad Street. We had the pleasure of a call from him this morning, and were pleased to see him enjoying our salubrious climate in such good health and spirits.

May the Negro be Allowed to Fight.

To the Editors of the Boston Daily Advertiser:

Immediately after the late Capt. Howard Dwight fell by the hands of guerillas his body was taken to New Orleans, and borne to his former residence there, to await the departure of a steamer which should transport it to his home in Massachusetts. A guard of men detailed for the purpose, from the 47th Mass. Vols. was placed around the house both day and night.

The brother and immediate friends of the deceased wrapped the coffin in the American flag, and covered it with flowers. These arrangements being concluded, they left the apartment and retired for the night. When, the next morning the afflicted brother entered the room again, a scene presented itself which showed that there were others besides the immediate friends who sought to pay their tribute of respect to the memory of this brave son of New England.

Members of "the Union Association of Colored Women" had visited the room early in the morning. They had brought white linen with which they had covered the furniture of the room, and upon which they had sewed green leaves. They had filled the room, and covered the coffin, with the freshest and sweetest flowers, made into wreaths and bouquets. They had made the scene one upon which the eye rested with delight. Each morning this labor of love was repeated. Each morning the faded flowers of the previous day were removed, and those of fresh beauty and fragrance took their place.

Before Lieut. Dwight left New Orleans, he attempted to express his thanks to those who had shown such tender care for him whom he mourned. He said to one of their number, "I want to thank you, but I know not how to express my thanks." "You owe us no thanks" was the reply; "Who are *your* friends, if we are not. All we ask of you is, that when you go home, you will tell the northern people *how we feel*, and say to them that we want our husbands and our sons to be allowed to fight in this war."

Stopped.—The Linen Mill discontinued operations for the present, last evening, and we understand the Metacomet will close to-night. Nine of the eleven cotton mills in the city, as well as the three Print Works, will then be standing idle. The Union and Quequechan mills are still running, working up their small stock of cotton on hand. The thread mills of Messrs. Oliver Chace and E. M. Swift are in partial operation. The woolen mill, and we believe the rolling mill are in full operation, but the nail mill is stopped for the week for want of material.—*Fall River News.*

State Local Summary.

George E. Darling arrested at Pawtucket as a deserter was discharged on a writ of habeas corpus, which was heard in Boston on Wednesday, and the young man has returned to his friends at Pawtucket, fully exonerated from the charge of desertion.

John Andrews was arrested in Warren on Wednesday night for robbing the shoe store of Nathaniel Drown. He was arraigned, convicted and taken up to the Providence County Jail on Thursday morning. Speedy Justice!

The Twenty-third Anniversary of the Rhode Island Baptist Sunday School Convention was held on Wednesday in the Baptist Church at Westerly.

The Convention was called to order by the President, Prof. J. L. Lincoln, of Brown University. The devotional exercises were conducted by Rev. M. G. Hodge, District Secretary of the American Baptist Missionary Union. The visitors were welcomed by Rev. Wm. Titus pastor of the church.—Professor Lincoln responded. Visiting brethren from other denominations were invited to participate, and the usual letters were read. At 12 o'clock the Convention partook of a bountiful entertainment at Armory Hall. In the afternoon session, the following list of officers were elected for the ensuing year.

President—Prof. J. L. Lincoln, of Providence.
Vice President—Emory Lyon, of Providence; Theophilus R. Hyde, of Westerly; and Henry H. Fay, of Newport.
Secretary—A. M. Gammell, of Warren.
Treasurer—Alvah W. Godding, of Providence.
Directors—James Boyce, of Providence; Wm. G. Langley of Newport; Benjamin T. Cranston, of Providence; S. B. Bartholomew, of Woonsocket; Reuben A. Guild, of Providence; E. P. Patterson of Pawtucket; S. R. Weeden, of Providence.

It was voted to hold the next anniversary with the Fourth Baptist Church in the city of Providence, and Prof. S. S. Greene of Brown University, was appointed Essayist. An able essay was read by Rev. W. S. McKenzie, for which a vote of thanks was passed, and a request made for publication. The following resolution was offered and advocated by Rev. G. R. Malcolm, of Newport:

Resolved, That the Sunday Schools connected with this Convention, be and they are hereby recommended to hold their monthly concerts on Sabbath afternoons instead of evenings, and that the churches be urged to grant this privilege to their schools.

An animated discussion followed upon the resolution and the essay, but no vote was taken.—Subsequently Mr. Malcolm withdrew his motion for the passage of his resolution, and it was ordered to be entered on the minutes. A resolution on the death of the late Dr. Jackson was passed, and owed thanks to the church for their hospitality; also, one to the Stonington Railroad. Prayer was offered by Rev. Benan Lincoln, and the Convention adjourned on Wednesday afternoon at half-past 4 o'clock.

A Curious Case of Poisoning.—In Chicago, a few days since, a physician was called to see a lady who had evidently been poisoned under the following peculiar circumstances: She is employed in the manufacture of millinery goods, and is frequently in the habit of biting off the thread while sewing, not knowing that all such articles of the kind are saturated with arsenic, as a portion of the coloring matter. She had absorbed into the system a sufficient quantity of the poison to have proved fatal, had it not been for the timely interference of medical aid. This should be a sufficient warning to all persons in the millinery business against the dangerous practice.

The rebel pickets on the Rappahannock taunt our men with the delay in capturing Vicksburg. They suggest that we shall have "a sweet job of it." A party from each side, lately, while bathing swam toward each other, shook hands with a "how are you old fellow," in the middle of the river, and agreed to change position for the time being. Our men, therefore, swam to the rebel shore, while their antagonists continued to this side. The latter then personated Yankees, shouting "How are you secesh?" with many expletives not calculated for ears polite, and were answered by "How are you pork and molasses? When are you going to pitch into us again?" etc. After a friendly talk with those near by, both parties retreated. This may seem odd, among men engaged in killing each other, but private and professional life are two very different matters. It is a domestic rifle ball one day, and a friendly handshaking the next.

A gentleman lately from the South says there is, at Savannah, no fear of an attack from the United States fleet. Every passage way and entrance from the bay to the river leading to the city, has been effectively obstructed. Huge boxes, eight feet square, have been filled with stones, and piled up in all the channels leading to the city, and powerful land batteries have been constructed, which command the obstructions. There are no troops at Savannah. Gen. Mercer, formerly cashier of the Planters' Bank of Georgia, was in command of a brigade of troops at that point, but they were all sent to Vicksburg to the assistance of Pemberton. At Savannah there are three gunboats for the protection of the city, in addition to the land batteries. Two of these were built there; the third was an old steamer, which they strengthened and plated, and armed with heavy ordnance.

An English engineer has invented a printing press which will print 25,000 sheets of a newspaper on both sides in an hour. The paper from which it prints is in the web on the reel, and after passing under the type is cut in sheets. The machine does without feeding, and the reel of paper that it feeds from is unwound by its own action.

The Chattanooga Rebel will have no joke.—Alluding to its sudden cold snap, it says: "The sudden change of the weather may be attributed to the coolness of the Yankee cavalry in presuming to visit the warmest portions of Dixie."

The last new thing in the way of dress ornamentation is leather. The Princess Metternich made her appearance lately in a dress of Havana-colored silk, ornamented with leather trimmings, studded with steel-headed nails. The bonnet was of the same material, ornamented in a like manner; and, strange to say, so was the parasol.

Reinforcements for Grant.—The Chicago Post of Saturday published the following significant paragraph:

"The Chicago Irish Legion, which for a long time has been stationed near Lagrange, Tenn., has gone to Vicksburg, with other reinforcements, for Gen. Grant. It would be contraband to say how many troops have gone and are going in the same direction, but they are a 'good many.'"

Under the head of slip-knots, the Newburyport Herald says a gentleman resides in that city who is without a wife, though two women are living to whom he has been married. One of the women has been married to two men, both living, and the other to three all of whom are still young and active. On her last marriage she sent to a friend saying that she had got an excellent husband, and he was not the first one of the same kind she had been blessed with.

Judge Hiestand, at a recent meeting of the Union Association of New Orleans, in that city, thus expressed his opinion of the progress of anti-slavery sentiment.

"What changes have taken place in one year! I have been a slaveholder since I was able to own a negro, and have never entertained conscientious scruples in the matter, and do not now. Three years since, in Lafayette square, I told the residents of this city that the first attempt to defy the power of the national government would result in the downfall of slavery. To-night I rejoice to inform you that from the Rio Grande to the St. Johns, and from the Atlantic to the Pacific, slavery is doomed."

SUPER PHOSPHATE OF LIME.

THE Undersigned agent in Newport for J. J. Mapes, offers for sale the above named valuable fertilizer. The experience of several years in various localities has proved it the most reliable and economical of fertilizers, cheaper, surer, and more lasting in its effects than Peruvian Guano, not so stimulating and productive of fruit and grain rather than leaves and foliage. As a top dressing for meadows, pastures and lawns it has no equal. It is cheaper than bought stable manure, more easily applied, and has the great advantage of producing neither weeds or insects, while it is injurious to many species of the latter. Any information will be given upon application, and certificates of its value can be shown—proving that for the farmer and gardener its effects are most desirable. R. W. LAWTON,

INCIDENTS OF THE BATTLES AT VICKSBURG.

NEW YORK, June 5.

Special to the *Herald* from Washington:

Despatches received directly from Grant's army of the 28th 29th, 30th and 31st mention the progress of the siege, but say nothing of any assault since the 22nd, nor of any battle since the 25th, which last was not very heavy. The Troops are represented in fine health and spirits. There was no immediate pressure on Gen. Grant's rear.

A Fairfax Court House despatch of 4th states Mosby's men made a small attack on our relief pickets that morning wounding one man.

Col. Gray with four squadrons of cavalry started in pursuit, capturing a rebel surgeon.

Grierson has been promoted to Brigadier.

The Urbana's correspondent of the *Herald* dated 22d states that Col. Kilpatrick with two regiments of cavalry reached Urbana on the 1st from their raid. At San Luda they captured the colors of the 12th Va., Infantry and scoured the country around that place for ten miles, capturing horses, mules, carriages and slaves.

An occasional skirmish was had with rebel guerrillas on their route but no fighting of magnitude.

A letter from Stuart was intercepted, stating that he would be in Middlesex County on Sunday to stop Yankee raids.

Among the prisoners captured by Kilpatrick, were Capt. Brown of the 5th Va., Cavalry, and the guerrilla Col. E. P. Jones. Only one of our men was wounded.

At Urbana the wharf was found burned and Transports under convoy of gunboats convoyed them across. A small force of Infantry on the transports gobbled up about a thousand contrabands between Yorktown and the Rappahannock, 300 horses and mules and depled the rebel granaries etc. The house of John Curtis's blockade runner about four miles from the river was searched by an expediton from the gunboats. Four men, two rebel flags, ten thousand dollars in North and South Carolina Bank Notes and Pacific Railroad Bonds were captured. Another house also has searched below Urbana where a large quantity of shovels, crackers &c., was destined for Richmond was captured. These expeditions were made by acting master Steel of the gunboat Primers.

A letter from near Vicksburg 24th to the *Herald* states the situation was then unchanged. Gen. Carr had captured an held an important work on the left of the Railroad during the whole day, but near dark were completely overpowered and compelled to retire. The 22d Iowa planted its colors on the Rebel rampart. Col. Stone all day respecting aid, when after keeping their colors there all that day, and after every man of the regiment who entered the Fort in the morning had been killed or wounded, except Lieut. Cole and 15 men, they were captured and taken into Vicksburg. The storming of the works cost us 2500 killed and wounded.

The place will now be regularly besieged. Our skirmishers are so efficient the enemy has no chance to work his guns and our batteries pour in a murderous fire night and day. The rebels during the nights manage to place cotton bales around the embrasures which are destroyed during the day. The rebels are constructing a new line of works between the outer line now opposed to us and the city. In a recent charge the 22d Iowa lost 250 men. Stevenson's brigade 260; Ransaw's 358; Carr's 500; Blair's Division 550; Steeles 600; Osterhaus's 200 and Smith's 350.

To-day 24th there has been a vigorous cannonading along the right and left.

The *Times* despatch states a party of contrabands from Culpepper arrived at Union Mills yesterday and reported three rebel Brigades arrived at Culpepper a few days since from the Rappahannock saying that they were going to Richmond.

The bridge over Rapidan has been re-built and trains pass over the road from Culpepper to Richmond via Gordonsville. Surgeon Wood telegraphs that the wounded from Vicksburg are being rapidly removed to hospitals at Memphis. Large quantities of ice and other comfort are forwarded from St. Louis. The Medical Department now prepared to furnish free of charge artificial arms to soldiers who lost them in battle.

Wm. F. Weller convicted as a spy is to be hung.

The *Times* correspondent with Col. Kilpatrick says the rebels had taken special pains to capture this command and while rebel citizens had destroyed bridges over Dragon River. Stuart with a large force was waiting at a Ford some six miles further up to force them to cross at a narrow place but our prisoners built a bridge over which our forces crossed without difficulty and then destroyed it.

The letter from Stuart captured in a rebel mail was directed to the guerrillers Col. Jones who was surprised by Col. Davis and captured in his own house. Citizens of the country through which Kilpatrick went expressed themselves pleased with the conduct of our men. The result of the raid is that a complete circuit was made by the rebel army, is the destruction of millions of dollars worth of railway property and materials, the Capture of hundreds of horses and mules, forty wagon loads of provisions, 1000 contrabands and the demoralization of the blacks throughout the whole country.

A recent order issued from the Headquarters of the Army of the Potomac provides that all Sutlers or persons engaged in traffic within the limits of the army, and liable to the provisions of the Internal Revenue Law, must within ten days from the second inst., exhibit to the Provost Marshal General receipts for the payment of all taxes due from them, in default of which the Provost Marshal General will seize and sell the property of both delinquents and pay the proceeds into the United States Treasury to satisfy the just claims of the Government.

Among the list of wounded at Vicksburg is Colonel Cradlebaugh of the 114th Ohio Vols. He was a delegate to the late house of Representatives from Nevada and made the startling expose of the Mormon outrages. He is very widely known as the Judge in Utah whose efforts to bring the perpetrators of the Mountain Meadow massacre and other revolting murders to punishment were thwarted by President Buchanan's refusing to allow the assistance of the United States troops. It is believed the Colonel is not seriously wounded, though no particulars as to the extent of his injuries have been received.

It is known here that a brigade of rebels encamped opposite Banks Ford on Monday where they still remain.

It may not be generally known that all the army orders, circulars, blank forms, envelopes, etc., for the Army of the Potomac are printed at Headquarters on two small portable presses and a sufficiency of type occupies a very small space, which is provided for the purpose. A two horse wagon when necessary removes the entire establishment. This department of the Adjt. Gen. Office is under charge of Lieut. Brown, of the late 23d New York Volunteers, an excellent printer. Five assistants are generally kept busy. Lt. Brown is from Lawrence County, New York.

POSTSCRIPT.

TWO O'CLOCK.

FROM NEAR VICKSBURG.

NEW YORK June 5.

A private letter from an Officer in Porter's fleet dated near Vicksburg 25th, says: We are meeting with success on every side and before long the entire river will be open. To night we had a despatch from Gen Grant stating that he was gaining ground and advancing slowly but surely on the town. We have kept our mortars playing on the town for the last three days and nights with fearful effect and have destroyed a great many buildings, besides two batteries. Deserters and paroled prisoners report to-night that the city cannot hold out much longer, they are getting very short of provisions and have already come down to half rations. They have no way of getting any more supplies. We all feel very confident here of the fall of Vicksburg in a very short space of time.

The term of service of a large portion of the 15th New York Engineers will expire in a few days, their two years time having expired. Those remaining will preserve the present Regimental organization. It is commanded by Col. Colgate. These two regiments together with a battalion of United States Engineers from the Engineers Brigade are under the command of Brigadier General Benham.

From California.

SAN FRANCISCO, June 3.

The Steamship St. Louis sailed at 10 o'clock this morning for Panama, carrying the mails, 150 passengers and $700,000 in treasure for England and $181,000 for New York. The St. Louis also took 337 bales of wool for New York.

Honolulu dates of the 16th ult. are received. The ship Don Quixote touched there on the 23d of April and sailed for Hong Kong on the 25th. The ship Kalah sailed for Hong Kong, May 10.

A circular had been issued by the Havanian authorities providing for the proper valuation of goods imported from the United States into the Islands, according as the invoices are made out at gold or currency prices. The objects being to collect duties only on the gold value of the goods at the ports whence they are reported.

The subscribers to the monument to the memory of Capt. Cook propose that it shall take the form of a light house at the entrance of Honolulu Harbor.

SAN FRANCISC, June 4.

The Republican politicians are in a flutter in regard to the nominations for State officers. The delegates chosen at the Sacramento Primary Election to the Republican State Convention, who were supposed to be in favor of Gov. Stanford for next Governor, have suddenly bolted him and will go for Mr. Low, the present Collector of the Port of San Francisco.

The election for delegates to the Republican Convention in San Francisco County takes place on the tenth inst. The Republican State Convention will meet in San Francisco on the 17th of June. Owing to the mining excitement in California and Utah. The people of Oregon are much disappointed at the scanty emigration this season of mining adventurers. New mining districts continue to be discovered. The last is near Lake Bigler on the Eastern slope of the Weston summit of the Sierra Nevada mountain arrived Danish Bark Canton from London.

GREAT INDIAN REMEDY
FOR FEMALES.
Dr. Mattison's Indian Emmenagogue.

This celebrated Female Medicine, possessing virtues unknown of anything else of the kind, and proving effectual after all others have failed, is designed to both *prevent and single babes*, and is the very best thing known for the purpose, as it will bring on the monthly *sickness* in cases of obstruction from any cause, and after all other remedies of the kind have been tried in vain.

OVER 2000 BOTTLES
have now been sold
without a *single failure*, when taken as directed, and without the least injury to health *in any case*. ☞ It is put up in bottles of three different strengths, with full directions for using, and sent by express, *closely sealed*, to all parts of the country.

PRICES—Full strength, $10; half strength, $5; quarter strength, $3 per bottle.

☞ *Remember! This medicine is designed especially for* OBSTINATE CASES, *which all other remedies of the kind have failed to cure; and that it is warranted to expel at* IN EVERY INSTANCE, *or the price will be refunded.*

☞ BEWARE OF IMITATIONS! None genuine unwarranted unless purchased *directly of Dr. M., or agent.* ☞ Consultations for ladies attending medical in the city a short time for treatment.

Dr. Mattison's Diuretic Compound
For Acute and Chronic Gonorrhœa.

This new remedy contains neither Balsam, Copaiva, Spirits of Nitre, Cubebs, Turpentine, or any other nauseous drugs, but is one that will be found pleasant to the taste and easily tolerated on the stomach, thus cleansing and healing in its operation and effecting all heat and irritation in the urinary passages. Many there have been suddenly cured by *Gonorrhœa* relief, either in acute or subacute, for a month or more, and with pale face and disordered stomach, foul breath and clothes are filled with its strong odor; throw away the disgusting nauseous, and take for a bottle of this *New Remedy*, which will not only cure you of it, but at the same time it will cleanse the system and the injurious effects of the various nauseous drugs you have been taking so long.

☞ ONE BOTTLE, WHICH TAKES A WEEK, WILL OFTEN EFFECT A PERMANENT CURE. Price $2.00.

Dr. Mattison's Anti-Syphilitic Syrup.
For Constitutional Syphilis

No remedy ever discovered has done what has been achieved by this. Under its use every form of constitutional syphilitic taint is speedily cured, and in a few weeks the subtle poison is completely eradicated from the system, and health and strength are permanently restored.

☞ *It was this remedy that cured in a few weeks a gentleman from the South, then stopping at Newport, and for which he presented Dr. M. with $100 besides his bill, after having been under the treatment of the most eminent physicians in Baltimore, Philadelphia and New York for* [illegible] YEARS.

One bottle, which lasts a month, will often effect a perfect cure. Price, $10; half size, $6.

Dr. Mattison's Nerve Invigorator,
For Nervous Debility, Loss of Power, Impotency, Confusion of Thought, Loss of Memory, Irritable Temper, Gloomy Apprehensions, Impudency and Nervousness, which may end in Insanity.

This new remedy for that fearful train of mental and physical evils arising from venereal excesses, and secret habits of the young, is composed of the most soothing strengthening and invigorating medicines to be found in the whole Vegetable Kingdom, which, in combination, form the most perfect medicine for this obstinate and distressing class of maladies ever yet discovered.—It has now been sent to nearly every State in the Union, relieving the mental sufferings of hundreds who have never seen the inventor, restoring them to comparative health, strength and happiness. *Price*—Quart bottle, which lasts a month, $10; half size, $6.

☞ *These four* GREAT REMEDIES *are the result of over twenty years' study and practice, and are now prepared they are known to be the very best* for their respective purposes, and I am therefore induced to make them public for the mutual benefit of myself and the sick, who otherwise could never avail themselves of their benefits. They are all warranted as represented, in every respect, or the *price will be refunded.*

☞ Prepared and sold ONLY at DR. MATTISON'S REMEDIAL INSTITUTE FOR SPECIAL DISEASES, rear No. 98 Union street, Providence, R. I., and sent by express, *secure from observation*, to all parts of the United States.

A WORD OF CAUTION.

☞ It has been estimated that over *Two Hundred Thousand Dollars* are paid to swindling quacks annually in New England alone; and that, too, without *any benefit* to those who pay it. All this comes from trusting, *without inquiry*, to men who are alike destitute of honor, character or skill and whose *only* recommendation is *their own* false and extravagant *assertions* in praise of *themselves*. The only way to avoid imposition is to take no man's word, *no matter what his pretensions are*, but MAKE INQUIRY. It will cost you [illegible] thing, and may save you many regrets; for, as advertising physicians in nine cases out of ten are *bogus*, there is no safety in trusting *any of them* unless you know *who* and *what* they are.

Dr. M. will send *free*, by enclosing one stamp as above, a Pamphlet on DISEASES OF WOMEN, and on *Private Diseases* generally; giving full information, with *the most unbiased references and testimonials* without which no advertising physician, or medicine of this kind is deserving of ANY CONFIDENCE WHATEVER.

☞ Orders by mail promptly attended to. Write your address plainly, and direct to DR. MATTISON as above. d13-1y

$500 WILL BE FORFEITED BY DR. L. DIX if Offline to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

BOTH SEXES, SINGLE OR MARRIED.

DR. L. DIX'S

PRIVATE MEDICAL OFFICE,

21 Endicott Street, Boston, Mass.,

is so arranged that patients never see or hear each other. Recollect the exact entrance to his Office is No. 21, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX

fully avows (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

HAS BEEN PROVED GRADUATE FROM AN ACCREDITED COLLEGE IN BOSTON,

SIXTEEN YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is entirely unprejudiced, and qualified only for

STRANGERS AND TRAVELLERS.

To avoid and escape Imposition of Foreign and Native Quacks *now swarming* in Boston than other large cities.

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in difficult cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

Do not trifle and add to your suffering, by being deceived by the lying boasts, or representations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature or character of Special Diseases, and care not for their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming, and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false testimonials and references, and recommendations of their medicines by the dead, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical Journals much that is written of the qualities and effects of different herbs and plants, and star it all the same to their Pills, Extracts, Specifics &c., most of which, if not all, contain Mercury, because of the ancient belief of its "healing everything," but now known to "kill more than it cured," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the Ignorance of the Quack Doctor, knowing no other remedy, he relies upon Mercury, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so called Extracts, Specifics, Antidotes, &c., both relying upon its effects in curing a few in a hundred, it is transmitted in various ways throughout the land; but, as all nothing is sold at the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will pervert the truth, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived, also, and unknowingly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications strictly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

CURE THAT COUGH OF YOURS.

Use the best, Safest, and cheapest Remedy the world has ever produced.

ONLY 12 & 25 CENTS PER BOTTLE.

MADAME ZADOC PORTER'S

GREAT COUGH REMEDY.

MADAME ZADOC PORTER'S Curative Balsam is warranted if used according to the directions, to cure in all cases, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the Throat and Lungs.

MADAME ZADOC PORTER'S BALSAM is prepared with all the requisite care and skill, from a combination of the best remedies the vegetable kingdom affords. Its remedial qualities are based on its power to aid the healthy and vigorous circulation of the blood, through the lungs. It is not a violent remedy, but a mild, soothing, searching and effective healer. Taken by the aged, invalid or teething child.

MADAME ZADOC PORTER'S BALSAM has been sold by the public for over 18 years, and has acquired its present celebrity by its being recommended by those who have used it to their afflicted friends and others.

MOST IMPORTANT.—MADAME ZADOC PORTER'S CURATIVE BALSAM is sold at a price which brings it within the reach of every one who may find it convenient to use. The family size at a single bottle will prove to be worth ten times its cost.

NOTICE—SAVE YOUR MONEY!!!—Do not be persuaded to purchase articles at 25 to 50 cts. which do not contain the virtues of a 12 cts. Bottle of Madame Porter's Curative Balsam. Do not let a mere saving which is a great or that of cheaper cost, any other medicine; and the very low price at which it is sold, make the proof to the other apparently small and unpopular of dealers, will sometimes recommend other medicines on which their profits are larger, and, in the endeavor to sell upon having Madame Porter's and none other. Ask for Madame Porter's Curative Balsam, price 12 cts., and in large bottles at 25 cts., and take no other. If you can't get it at one store you can at another.

Sold by all Druggists and Storekeepers at 12 cts. and in large bottles at 25 cts.

CURE FOR PIN WORMS.

DR. E. G. GOULD'S

PIN WORM SYRUP

Is the first and only remedy ever offered to the public for the effectual removal of the Ascarides, or Pin Worms, from the human system. The high reputation it has established in the last two years, and the fact that it is fast superseding all other worm remedies, is the best test of its great excellence.

It affords Relief in twenty-four hours and an Entire Cure is warranted when taken according to directions, which accompany each bottle.

This Syrup is also a most valuable family cathartic, to be always used when physic is required, especially for children. It corrects the secretions, gives tone to the stomach and bowels, assisting nature in her efforts to restore health. It is PLEASANT OF ITS EFFECTS, PERFECTLY SAFE, AND ALWAYS RELIABLE.

DYSPEPSIA & FITS.

A SURE CURE FOR THESE DISTRESSING COMPLAINTS IS NOW MADE KNOWN IN A

"Treatise on Foreign and Native Herbal Preparations."

Published by DR. G. PHELPS BROWN.

The prescription was furnished him in such a providential manner that he cannot conscientiously refuse to make it known, although he never was a believer in Clairvoyance, Spiritualism, Pathyceology, &c. This remarkable remedy has cured everybody who has tried it, never failing in a single case. It is equally sure in cases of Fits as of Dyspepsia and the ingredients may be found in any drug store. Those who are afflicted with Consumption, Bronchitis, or Asthma, may also be cured by the use of my Herbal Preparations, which are charged with electric magnetic properties, and an *aura* or atmosphere is continually emanating from them, in consequence of the *positive* and *negative* properties of its atomic electric magnetic principles, thereby rendering their efficacy truly wonderful in all cases of Lung Complaints. I will send this valuable prescription free to any person on receipt of their name.

The subscribers have become agents of the patent GALVANIZED IRON COFFIN, a new article finished in the most beautiful manner and made of what has proved by years of experience to be *the most perfect preservative of all materials.*

This article in shape and outward appearance is as polished and finished as wood coffins. It is much less unwieldy, in appearance lighter, more efficient and easier handled than the cast iron coffins which have been in use for several years.
